## Built with security and privacy as a priority

Our systems are built in a way that means we cannot mine or sell data to third parties. Once we've completed our security checks, we can't access any user details. We're trusted by regulators for adhering to the highest standards of security.

## Building trust for market leaders

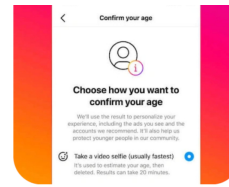

Yoti excels in building robust verification solutions for regulated businesses and governments

**Giving Instagram new ways to verify**

Instagram uses Yoti's facial age estimation technology as an option for people who need to prove they are over 18 on Instagram. Over 80% of people choose facial age estimation.

## Striving to do the right thing, from day one

We were founded on a robust framework that ensures we continue to drive the development of ethical technology. We work with regulators around the world to inform and progress vital standards to make the internet a safer place for everyone.

As a certified B Corp, we aim to place equal value on people, planet, purpose and profit. From the start, we've been committed to a transparent, honest and inclusive approach to making identity accessible to everyone.

Yoti is a digital identity company that makes it safer for people to prove who they are. We started by empowering people with a free, reusable digital ID app that minimises the data they share with businesses. We now provide verification solutions across the globe, spanning identity verification, age verification, eSigning and authentication.
